

FACES OF THE FRONT

Latissia Vaughn of Suntrust Bank

Latissia Vaughn, Assistant Branch Manager at Suntrust Bank at 100 M Street, SE, has been working in the community for two years. She loves all the events the Capitol Riverfront puts on, like the lunchtime concert series, but she said "the movie series is my favorite, and the line-up is even better this year." Her favorite places in the neighborhood are the Nationals Stadium, The Yards Park and Justin's Cafe.

Latissia choose to work in the community because she is from Washington DC, and remembers the area before recent developments. "I am glad to be a part of the growth of this community, as well as seeing the positive changes the BID has made to the neighborhood," Latissia added, "I look forward to living in the community in the near future."

"I think BID stands for more than Business Improvement District, it means 'Beauty in Development' to me," she said. Some of the changes she appreciates are the cleanliness of the neighborhood, and the greeters at the Metro stations. She also thinks the events are great for those who commute to the community to work, and for the residents that live here. Latissia concluded, "The community is great to work in or live in, thanks to the Capitol Riverfront BID - keep up the good work."
