NATS OPEN 9th SEASON IN DC’S FASTEST GROWING NEIGHBORHOOD
Capitol Riverfront Experiencing Biggest Building Boom in Its History

(Washington, DC—For Immediate Release) Opening Day for the Washington Nationals’ 9th season in the Capitol Riverfront brings fans and visitors to DC’s fastest growing neighborhood, with an unprecedented development pace. With 7.3 million square feet of office space, 4,021 residential units including the recently completed Park Chelsea and Arris apartment buildings, two hotels, and a population of nearly 5,000, the neighborhood has experienced dramatic growth since the first opener in 2008 with more on the way.

“Spring doesn’t truly arrive in the Capitol Riverfront until the first pitch is thrown out, but this year, it’s been hard to contain our excitement over the explosive growth of retail and residential offerings since last year’s opener,” said Capitol Riverfront BID president Michael Stevens. “With 10 new residential developments arriving or under construction, we also know that the fans who visit for the best in DC sports are going to find their next home in one of DC’s most livable and affordable neighborhoods.”

For pre-and-post-game excitement, this will be the final year for the temporary pavilions along Half Street, as they’re gradually replaced by permanent residential, as well as year-round retail and dining options. New dining destinations in the Capitol Riverfront since last year’s Opening Day include:
